Specifications

- Size:** Control Head: 2-3/4"H x 6-1/4"W x 1-1/2"D
Amplifier Box: 2-1/2"H x 7"W x 7-1/3"D
- Weight:** 6.5 lbs.
- Output:** 100 or 200 Watts (1 or 2 speakers)
- Voltage:** 10V - 16V DC
- Frequency:** 675-1633Hz
- Amp Draw:** 8 Amps (per speaker)

SS730

The SS730 is the choice where dash or panel mounting space is a consideration. It incorporates a telephone type connection between the amp box and control head. Rotary switch selectable operating modes are Wail, Yelp, Hands Free, Phaser, Manual, Alert, and Radio. Push buttons operate Manual and Air Horn. Operating tones are Wail, Yelp, Air Horn, Phaser, Manual, and Two-Tone. Positive or negative switching for AUX and Park Kill inputs. The SS730 is protected against speaker shorts with a self-resetting circuit and a high & low voltage shutdown feature. This unit also features jumpers for option selections, public address override, and separate volume controls for the radio repeat and public address functions. Includes an attached noise cancelling PA microphone and is backlit for easy night time readability. Ships complete with wire harness w/positive locking connector, mic clip, mounting bracket, hardware, and instructions.

- Voltage:** 10V - 16V DC
- Frequency:** 675-1633Hz
- Amp Draw:** 16 Amps

SS741MG

Two sirens in one, the MAGNUM™ has two separate modes of operation, each offering its own distinct tones. It incorporates the use of two isolated amplifiers in one box, each operating one 100 watt speaker, for a total of 200 watts of output. Perfect for dash or panel mounting with use of the telephone type connection made between the amp box and control head. LED speaker diagnostics allow quick troubleshooting. Rotary switch selectable operating modes are Wail, Yelp, Hands Free, Phaser, Manual, Alert, and Radio. Push buttons operate Manual and Air Horn. Operating tones are Wail, Yelp, Air Horn, Phaser, Manual, and Two-Tone. Positive or negative switching for AUX and Park Kill inputs. The SS741MG MAGNUM™ is protected against speaker shorts with a self-resetting circuit and a high & low voltage shutdown feature. This unit also features jumpers for option selections, public address override, and separate volume controls for the radio repeat and public address functions. Includes an attached noise cancelling PA microphone and is backlit for easy night time readability. Ships complete with wire harness w/positive locking connector, mic clip, mounting bracket, hardware, and instructions.
