

# Star Phantom

## ULB42

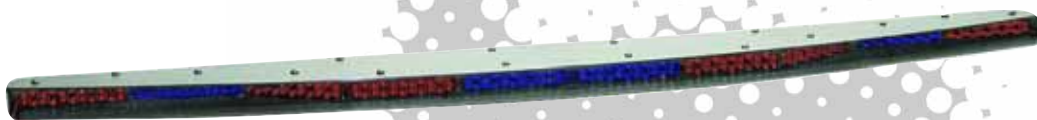

The patented STAR Phantom® interior mount LED lightbar is perfect for undercover or unmarked vehicle applications. With an extremely thin profile, less than 1" high, the ULB42 easily mounts under the center visor clips above the rear view mirror in 15-20 minutes. 270 long-life LEDs give the STAR Phantom® the power and flexibility you need with 35 customer selectable flash patterns with the push of a button. Two angled LED sections offer intersection clearing and a red "night vision" preserving map light are standard. An adjustable baffle is also included to eliminate "backflash" from the window. A rear window mount version is available without a cig plug adapter (Model# ULB42-1). The ULB42 ships complete with cig plug with lighted on/off switch, mounting brackets, hardware, and instructions.

Parts - ULB42 Series	Part Number
