

Traffic Directors

ULB42-TD

The ULB42-TD interior mount LED traffic director is perfect for undercover or unmarked vehicle applications. Made from durable poly-carbonate plastic, these traffic directors will not warp or bend. With an extremely thin profile, less than 1" high, the ULB42-TD easily mounts in the rear window. 270 long-life LEDs give safe traffic directing ability. The microprocessor control unit with tactile switching gives you four distinctive pattern modes with three NEW "option" buttons (Fast, Dim, and Alt). Four outboard LED sections (two at each end) allow different color combinations for warning patterns while using the six inner Amber LED sections for traffic directing. The ULB42-TD ships complete with control unit, attached wire harness, mounting brackets, hardware, and instructions.

Parts - ULB42-TD Series	Part Number
LED Director Only	ULB42-TD-1
Control Unit	ULB42-TD-2
Mounting Bracket Kit	ULB-BKT
Bulk Cable (per foot)	TD92-3

Specifications

Size: ULB42-TD-2 Control Unit: 1-1/2" H x 6"W x 4-1/2"D
Weight: Less than 1 lb.
Voltage: 12V DC
Amp Draw*: 1.2 Amps Max
Color Combinations: Amber, Blue, Green, Red, White
